evertonfranca@aol.com

Hello, I'm a web **development student**, I **love coding** and **learning new languages**. My experiences have allowed me **to grow** as a person, being able to work in **different areas** of my job, giving my all, **making the best** of every **opportunity** and taking on **new challenges**. I am a **team worker** with excellent **interpersonal relationship skills**. My main **goal** is to continue to **develop** in IT **positions** that allow me to be part of the **growth** of the **company** that I represent.

EXPERIENCE

Outsystems Developer
May 2022 - Oct 2022

Develop software for customers to ensure the delivery of projects in the best possible way, aiming at customer success. Develop **REACTIVE** and **MOBILE** applications using **OUTYSTEMS** technology and following the best platform development practices, to guarantee quality, agility, performance, and usability to the solutions.
 - USING INTEGRATIONS WITH **REST APIs**
 - USE OF **AGILE METHODOLOGY** (**SCRUM**)

Junior Web Developer
2021 - 2022

Create and design web application using **HTML**, **CSS** and **JS**. I've created many projects like **Bikecraft, Starbucks, Netflix, Surfboat** to impove my skills

Coordinator and Teacher
2016 - 2018

Ensure the weekly realization of the collective schedule of teaching work, organize teacher meetings, provide individualized service to teachers, and provide a theoretical basis to guide reflection on practices, knowing the school's performance in external evaluations

FIFA Confederation Cup Brazil
2013

I worked as a volunteer at the Confederations Cup Brazil 2013, directing, translating and assisting journalists from Brazil and the world, in the media centers, at the press conference, and in the press stands.
